

January 17, 2026

**Subject: European Union Directive 1907/2006 on the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH)**

This statement is intended to provide Precision Sensors response to inquiries regarding EU REACH directive 1907/2006 which entered into effect on June 1<sup>st</sup> 2007.

As defined by REACH, Precision Sensors (PSI) is a supplier of finished products or "articles." Since PSI is not a manufacturer or exporter of chemical substances, we are considered exempt from substance registration per REACH/SVHC Article 59(10).

While PSI is not located within the EU or the European Economic Area, we are obligated to disclose REACH SVHC when applicable. All PSI products are composed of electrical or electro-mechanical devices, the majority of which are manufactured with leaded solder which can surpass the 0.1% w/w threshold as defined by REACH.

The following products may potentially contain lead above the threshold as defined by REACH:

May contain >.1%w/w of the <b>SVHC Lead (CAS 7439-92-1)</b>	
<b>Part Series</b>	<b>Product Name</b>
E-W	Absolute Pressure Switch
A-C	
E-C	
PV-W	Vacuum Pressure Switch
PV-M	
PV-S	
E-N	Staset® Pressure Device
P-W	Gauge Pressure Switch
P-M	
P-B	
D-M	Differential Pressure Switch
D-W	
D-P	
D-C	
D-S	
LDP	ECHOLINE® Pressure Device
LPS	Pressure Transducer
XP	
P-X	
V21F, V22F, V121F, V221F	Flow Switch
M12B
